

# Integrated Barcoding Systems

## QuikTrac-ICS

**QuikTrac-ICS** was designed to give customers a better control over their inventory without spending a fortune. **QuikTrac-ICS** is setup so that you can layout your own warehouse the way you need it within a few hours. Once you have your locations setup, you can begin receiving your inventory into your warehouse.

**QuikTrac-ICS** works with wireless data collection terminal to allow you to receive, inspect, put-away, transfer, pick, ship and print shipping documentation in real-time. **QuikTrac-ICS** also give you the ability to view your warehouse inventory locations at your desk thru our web host interface.

### Benefits:

- ✓ Fast Implementation
- ✓ No custom programming required
- ✓ Web based customer viewing of on hand inventory
- ✓ Supports Multiple languages
- ✓ Supports all TCP/IP data collection devices
- ✓ Printing from any handheld screen

### Key Features:

- ✓ Real time integration into any ODBC database
- ✓ Setup your warehouse to meet your needs within hours
